Sir,

Sub: Industries - Sericulture - Government Silk Filature, Kollegal. labour colony - permission to utilise one tenement for locating a school for children - permission requested.

I enclose a copy of a letter No.537 L.W.D/47 dated 9-12-47 received from the Sericultural expert, Kollegal in which he has stated that the inmates of the labour colony are experiencing great difficulty in educating their children. It is desirable to afford necessary facilities for conducting the school particularly as some of the staff have volunteered to impart necessary instruction. I suggest, therefore that permission may be accorded to utilise one of the labour tenements in the labour colony for conducting a school free of rent.

Sub: Labour Colony - permission to utilise one tenement for locating a school for the children of - requested.

The inmates of the labour Colony represented to me when I met all of them in the colony on 27-11-1947 that they have been experiencing great difficulty in educating their children in the local schools which are farther away from their residence andy they requested me to provide educational facilities for the benefit of their children. As some of the staff members who were present then volunteered to render this social work of imparting instruction both to the children and adults of the colony in their spare hours, and as the inmates agreed to subscribe a few annas every month to meet the small items of expenditure like getting a black board, chalk pieces etc. it has been found practicable to open a small school for these children, who nimber about 25, on very modest lines. This, I sincerely feel, will go along way to mitigate the hardships experienced by the inmates in educating their children. To conduct regular classes, it is but essential that a particular place is set apart, within the colony. For this permission to utilise oneof the tenements may kindly be accorded. This kind allotment incidentally helps me to house the radio also placed in the custody of the Hon- Wardent.

I request the favour of early orders.

Sir,

Sub:- Industries - Sericulture - Government Silk Filature, Kollegal labour colony permission to utilise one tenement for locating a ~~school~~ school for children. Dev.

Ref:- Government Memo No.5817.D1/48-1/dated 20-1-48.

---

39 out of 40 tenements in the labour colony are occupied and only one is vacant now. The school is proposed to be held in this vacant tenement . According to the data statement which is under preparation, the rent for each of the tenement would come to about Rs.7/- p.m. But only a rent of Rs.2/0/- plus an electric current charge of as.8 is being recovered for the tenements. A separate report to Government is being submitted to Government on this point.

To A.S.

Reply from the D.I.&.C. at p.7cf to Government's memo at p.5cf may be perused. The proposal of the D.I.&.C. in this fil is to utilise one of the labour tenements in th Labour Colony Kollegal for conducting a school for the Labourer's Children free of rent. As regards the rate of rent for the tenements in question the D.I.&.C. has submitted separate proposals for its reduction from Rs.7/- p,m. to Rs.2/ p.m. for each tenement with an additional charge of ~~Re~~ R-0-8- for supply of electricity. It is perhaps necessary to know the amount of rent which the Government is to forego in case his ~~proposal~~ at 'A' above ~~over leaf~~ is to be ~~accepted~~ For orders whether this may lie over till orders are passed his proposal in the linked file.

Dy 19/3/48 19/3/48

The proposal is to utilize one of the 40 labour tenements for running a School for the children of the labourers. There is great difficulty in educating them. Some of the members of the Staff have volunteered to impart instruction. All that is wanted from Govt is permission to use one tenement for the classes free of rent. Of 40 tenements only one Cant and this is to be utilized

The rent of each tenement according to book value would be Rs 7 pm but this has never been collected. The rent was provisionally fixed at Rs 3 pm in 1945 but as even this did not attract labourers it was reduced to Rs 2 pm 1946. Even at that [illegible]

above labourers were not housed within to recruit them, and many of the tenements are filled up by other staff and labourers other than those working for the factory

a question of fixing a rent for future and at regular time the Collector/ Act I of Rs 3/- and at Rs 2 1 are separately under Consideration

with this proposal to permit the use of one tenement for a School for the may be accepted.
